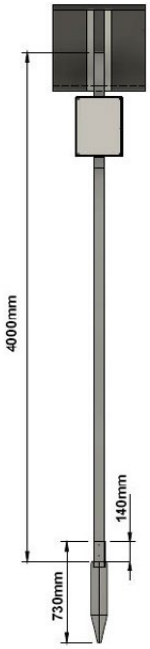
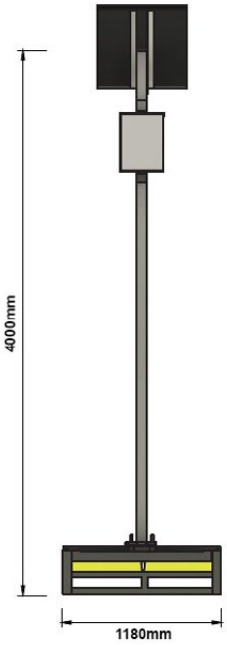
1 x Secure in ground spkie



ABOVE GROUND

1 x 4m strong steel pivoting pole
1 x Above ground, weighted modular steel base, forkliftable



AI SMART MOTION DETECTION

Our AI motion detection technology helps focus on humans and vehicles. The device will only trigger an alarm when the preset intrusion type (human or vehicle) takes place. Videos related to the alarm events are then sorted into human and vehicle categories for easier footage searches.

PROGRAMMABLE TRIGGER ZONES

As each site has different conditions, 1300SiteCam can customize tigger detection zones to provide accurate detection of intrusion events.

SECURITY MONITORING

1300SiteCam can provide 24/7 site monitoring. If this is of interest, please contact us for further information.

EXPANDABLE LARGE CAPACITY LITHIUM BATTERY

1300SiteCam's modular platform uses the latest lithium battery technology. Lasting up to 5 days without any sunlight, there is also optional expandable capacities that can support up to 10 days if required.
